Centres will register learners against both this qualification and a sporting population programme linking to the specific sport or to a generic “Sport and Physical Activity”.

Learners may RPL their programme across to another sport area and would not need to repeat the full qualification but just complete the sport specific requirements.

It is expected that learners complete this qualification holistically. The assessment strategy to support this qualification allows for tasks to cover a range of content and sections of units within an activity.

These tasks will be contextualised by the centre to suit the learner and the sport they are completing the qualification in. Centres may, if they wish to, create their own assessment tasks for learners to complete this qualification.

The minimum venue, facility and requirements stated in the centre handbook apply.

This qualification is regulated by Ofqual 610/1629/9 and QiW - C00/4715/5
